

# THE GREAT SEATTLE EARTHQUAKE

A NOVEL BY THOMAS P. HOPP, PhD

## WHAT IF THE SEATTLE FAULT WERE TO FRACTURE — TOMORROW?

**How bad might the devastation be?**

**How would emergency responders cope with the catastrophe?**

**What is the chance of a tidal wave following the quake?**

**How many people's lives would be threatened?**

**How prepared are city officials, first-responders, stadium staffs, and citizens?**

**What do Native American oral traditions teach us about past earthquakes?**

Researching **THE GREAT SEATTLE EARTHQUAKE** over a period of years, author Thomas P. Hopp interviewed government officials, military planners, scientific experts, and members of the Duwamish Tribe. He used this wealth of background information to add heart-stopping realism to his tale.

Dr. Hopp is available for public appearances discussing his book and the potential for catastrophe if the Seattle Fault fails. A seasoned presenter who has appeared live on television, radio and webcasts, he offers lectures, slide presentations, and interviews. He is also available for library and bookstore appearances and book signings. Contact him by mail or email at the address below.
